**CHOOSING TO IMPROVE THE SUSTAINABILITY OF YOUR BUSINESS TODAY, WE CARE ABOUT OUR COMMON FUTURE TOMORROW.**

Only tableware made of wood can be thrown in the trash without any environmental impact.

	PLASTIC	STARCH	BIOPLASTIC	WOOD
POLYMERS	100%	8-30%	100% и D2W	NO
METHOD OF UTILIZATION	recycle	compost	compost	biodegradable
DURATION OF STAY IN NATURE	> 200 years	3-4 years	3-4 years	< 1 year

**Disposable tableware easily mold with busy lifestyles.**

We are not ready to give it up, but once we have single-used plastic tableware, it is important to understand your responsibility among the planet .

## ECO-FRIENDLY SOLUTION FOR YOUR BUSINESS

We produce a high quality product by combining care of your customers and staying green.

Fork tines became more longer which make process of spearing food easier now

Produced from 100% wood in an environmentally clean area of Russia

Spoon bowl took the form of a wide ellipse and became more spacious

Handle with stiffener became more stronger

Double polishing is guarantee safety usage

All products went three-stage quality control

A top-down view of eco-friendly tableware and packaging on a pink background. The items include bamboo chopsticks tied with a string, a round bamboo tray with a stack of paper napkins, a brown paper bag with a twill handle, and several bamboo forks and knives. Green leaves are scattered around the items.

We would be glad to collaborate with you!
